

Summary of the progress

Task Force 2: NWFP data and models

Krakow, 20th - 21st of February 2014

Assistants: *Rafael Calama (Spain), Michal Kalinowski (Poland), Isabel Carrasquinho (Portugal), Fouad Mounir (Marocco), Henn Korjus (Estonia), Dimitrios Bakaloudis (Greece)*

Parallel session adopted decisions:

- A draft index for the book chapter was proposed. The chapter will focus on i) define importance of quantifying and forecasting NWFP in Sustainable Forest Management framework ii) current state on NWFP surveying and inventorying methods and datasets iii) advantages and disadvantages of different modelling strategies for tackling with NWFP iv) new directions on NWFP data acquisition and modelling
- Different topics to be proposed for including in NWFP data base. For each product:
 - o Current / annual yields and values at national scale
 - o Existing datasets and data series
 - o Existing predictive models and other tools
- Other outputs: a compilation of existing essay trials focusing on NWFP at European scales
- A Training School on “Modelling NWFP” was proposed by TF2 and approved by the MC. Training School will take place between September 29th and October 2nd 2014 in Spain.

Next steps

Subtask 2.1.1. Inventories and datasets in NWFP (focus in the main products per country, at least one per WG category)

- Design final structure for questionnaire concerning NWFP and forest inventories at different scales
 - o Responsible: TF2 coordinator propose a final version (31st march) TF2 members & experts discuss and suggest changes (30th April)
- Disseminate and feedback the questionnaire
 - o Responsible: TF2 coordinator, TF2 members & experts, MC members
 - o Deadline: 30th September?
- Preliminary analysis: To be presented in Zagreb

Subtask 2.1.2. Current existing models for NWFP (focus in the main products per country, at least one per WG category)

- Design final structure for questionnaire concerning NWFP models
 - o Responsible: TF2 coordinator modifies STARTREE questionnaire (30th April) and members & experts made changes & suggestions (31st May)
- Disseminate and feedback the questionnaire
 - o Responsible: TF2 coordinator, TF2 members & experts, MC members
 - o Can we disseminate it with the previous one? Deadline: 30th September?
- Preliminary analysis: To be presented in Zagreb?

Subtask 2.2. Compilation of NWFP permanent trials

- Design final structure for questionnaire concerning NWFP models
 - o Responsible: TF2 coordinator proposes a draft questionnaire(31st May) and members & experts made changes & suggestions (30th June)
- Disseminate and feedback the questionnaire
 - o Responsible: TF2 coordinator, TF2 members & experts, MC members
 - o Launched in autumn Deadline: not defined

Subtask 2.3. Needs and demands from stakeholders concerning data and models in NWFP

- To be developed in future activities

Dr Rafael Calama

TF2 Coordinator
